Report the number of OSHA recordable injuries occurring during the week with a brief description of each and attach a copy of the First Report of Injury/Incident Form, Incident Data Collection Form, and any Tap Root, or other investigation documents. The originals documents must be turned in within the following timeframes as specified in the CEHS Manual and copies included with this report.

Initial Report

As soon as the scene is stabilized (but not more than 1 hour)

First Report of Injury/Incident Form

By the end of shift

Preliminary Investigation Report

24 Hours

Detailed Investigation Report

4 Days

Report any First Aid cases or Near Misses reported to you either verbally or in writing to include those reported on the 5-point cards.

Report all Environmental releases

Contractors are required to do a documented self inspection at least once each week. Report the findings from that inspection and any other inspections conducted and the resolution of those findings. Attach a copy of the inspection form to this report.
